Action Entropy: Action-Level Uncertainty

Free-space motion

Fewer constraints

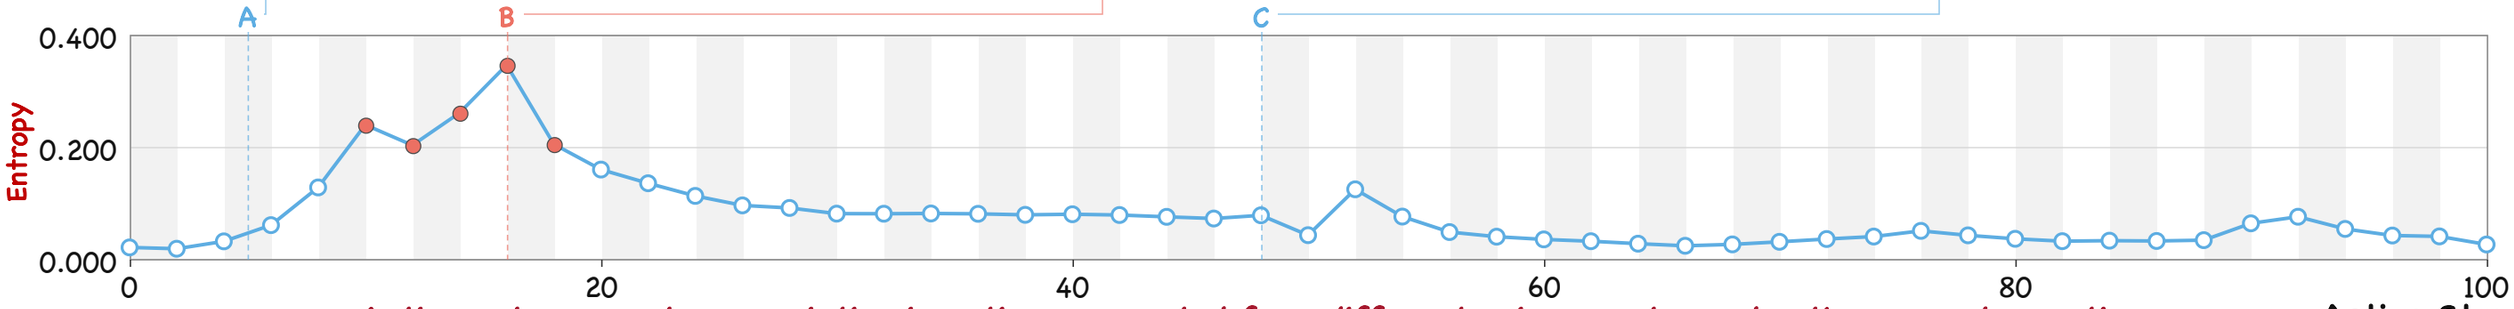

Grasp alignment

How to align?

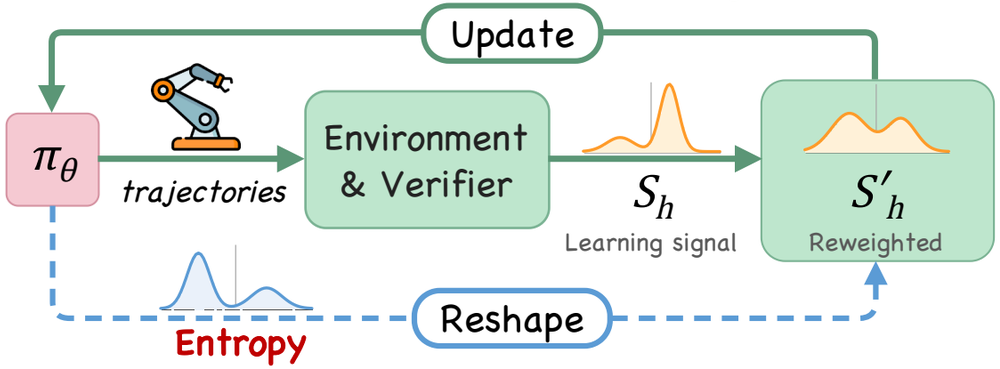

Grippers aligned

Ready to grasp

Action entropy captures variation in actions generated from different noise samples under the same observation.

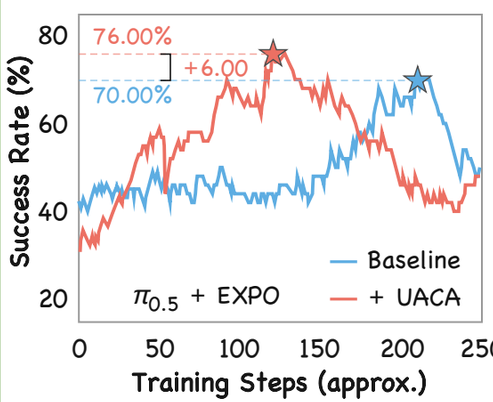

UACA for Post-Training

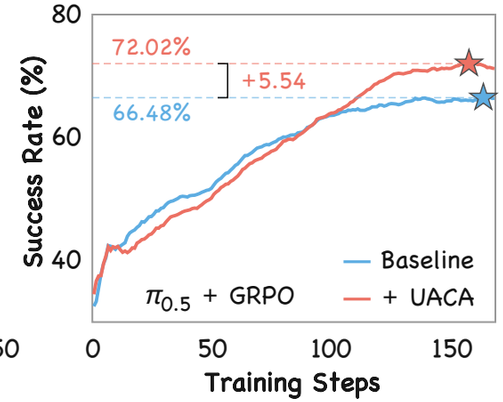

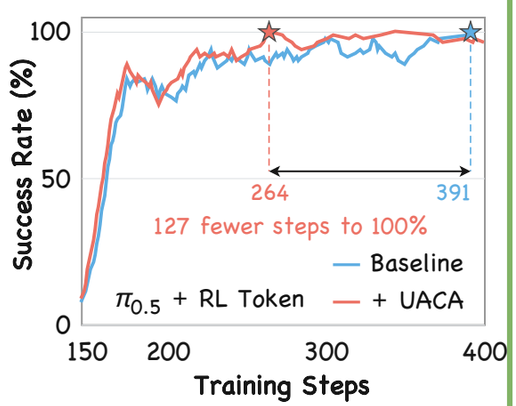

Prioritize high-uncertainty actions during learning.

Plug-and-play credit assignment for online post-training methods.

Gains Across Settings

Training gains across flow-based models and online post-training methods.
